More information on these solutions plus a listing of printed materials on “Strategies, Tools, Methods” and “Concepts, Theories, Issues and Case Studies” is available on at <http://national.unitedway.org>

Also of interest:

1. The local company, eHana, has experience in building applications for automated support to outcomes-based organizations. Contact them at (866) 706-4262 or info@ehana.com . Their Web site is currently under construction.

2. Point K Learning Center	Innovative Network	www.innonet.org
3. B2P Impact Manager	B2P	www.b2p.com

Most vendors have either an interactive demonstration of their software on-line or you can schedule a live demonstration via the Web. After seeing the demonstration, talk to the vendor about how much flexibility you would have to customize the software for your use, how much flexibility you have to make changes once the solution is implemented and what costs are related to changes.
